

Mitsubishi CITY-MULTY VRF 3-Day Essentials Course.

Introduction

The CITY-MULTY VRF 3-Day Essentials Course provides an in-depth of the techniques associated with properly installing commercial CITY MULTI systems. Instructions focus on the best practices, limitations, and manufacturer's requirements for wiring, addressing, refrigerant, piping, and equipment installation.

The course covers understanding of product identification tag, defining CITY MULTI® VRF nomenclature and components. Attendees will get hands-on experience building systems using

Diamond System Builder design software.

Attendees will trouble-shoot the system using the Maintenance Tool data analysis to resolve City-Multi system errors. The electrical flow and voltage checkpoints will be covered in addition to the recommended steps for replacing faulty components.
